ABOUT US

Ningbo Kugerl Electrical Technology Co., Ltd. was established in 2018, is an ISO9001 quality management system certified enterprise. The factory is located in Cixi, Ningbo, a small home appliances production base, with business offices in Shenzhen, Foshan and Huizhou.

The company has a senior and professional R&D and production team, focusing on the research and production of cross border e-commerce small household appliances, such as heaters, circulating fans, air fryers, humidification air coolers, etc. Providing OEM/ODM customization services according to customer needs. We have used advanced and complete production and testing equipment, such as German imported DMG machining centers, precision die-casting machines, spectral analyzers, etc.

The total area of the factory is about 15000 square meters, with over 100 employees and a daily production capacity of over 8000 sets. The product complies with certifications such as 3C, UL, ETL, CE, ROHS, FCC, PSE, METI, UKCA, KC. Suitable for major cross-border e-commerce platforms as well as large offline supermarket customers both domestically and internationally. It is mainly sold to countries such as Europe, America, Japan, and South Korea.

In the future, Kugerl Electric will continue to strive forward, embrace change, enhance professional capabilities, produce more high-quality private model products, drive smart life, help more brands direct to global customer smoothly, and create greater value for customers.
